

# Leverage to Lead Educators Community of Practice

Professional Development for educators often focuses on improving our classroom skills.

But we also need opportunities for **personal and career development**, where we can ask crucial questions:

*How and where can I grow as an educator?  
What's important to me?  
What's next?  
What do I want?*

And we need a supportive community to help us grow and evolve.

Our 2024 **Educators Community of Practice** is a space for K-12 education professionals who want to shape a career trajectory that reflects your strengths, values, and authentic self.

In facilitated and interactive sessions, we will dig into your identity, purpose, and strengths, helping you navigate your next career steps with awareness, intention, and agency.

With supportive care and compassion, we offer a space to be fully yourself, build relationships, and gain tools to keep you aligned with your mission and values as you make decisions, face challenges, and choose your direction.

## Program Highlights

- 4 facilitated and interactive sessions focused on your personal and professional development
- 1:1 feedback and processing with a Leverage to Lead facilitator
- A diverse, compassionate, and supportive community of educators
- A small cohort of no more than 10 participants
- Developing Human-Centered Practices to support building and strengthening relationships in the Community of Practice and your school communities
- Opportunities to reflect on what *you* want

## Important Dates
